

AHMAD SHAAD ZAKI

Aligarh, Uttar Pradesh (Open to Relocation) | ahmadalig20@gmail.com | +91 82187 71108 | linkedin.com/in/ahmadshaadzaki

CAREER OBJECTIVE

B.Tech (CSE) graduate with hands-on lab experience in Windows Server, Active Directory, PowerShell scripting, and networking fundamentals. Building toward a long-term specialization in Identity & Access Management (IAM), with foundational knowledge of core IAM concepts — authentication, authorization, RBAC, JML (Joiner-Mover-Leaver) lifecycle, and least privilege. Preparing for the Microsoft SC-900 certification. Strong communication and coordination skills backed by prior client-facing work experience. Seeking an entry-level System Administrator / IT Support role — open to relocation anywhere in India.

TECHNICAL SKILLS

Operating Systems: Windows 10, Windows 11, Windows Server 2022, Linux (Ubuntu, CentOS, Kali Linux — basics)

Networking: TCP/IP, DNS, DHCP, Subnetting, OSI Model

Directory Services: Active Directory Domain Services — OU creation, GPO configuration, user/computer object management, group-based access control

Scripting: PowerShell (basic scripting for AD user provisioning and admin task automation — actively learning)

Identity & Access (IAM): IAM concepts (RBAC, authentication/authorization, access lifecycle), JML Lifecycle, Least Privilege Principle, SSO & MFA (conceptual)

ITSM / Ticketing: ServiceNow (working knowledge); ITIL Foundation concepts (in progress)

Linux Administration: Ubuntu shell basics, SSH, package management (apt) — daily hands-on use

Tools: VMware, VirtualBox, Windows Server 2022, Google Workspace, Microsoft Office Suite, Git/GitHub (learning)

Soft Skills: Client Communication, Documentation, Problem-Solving, CRM/Database Coordination

PROJECTS / HANDS-ON LAB WORK

Home Lab Infrastructure — Multi-OS Virtual Environment *(Ongoing, 2026)*

- Built and maintain a multi-OS virtual lab using VMware and VirtualBox, running Windows Server 2022, Ubuntu, CentOS, and Kali Linux.
- Deployed Windows Server 2022 and configured Active Directory Domain Services: created Organizational Units (OUs), configured Group Policy Objects (GPOs), managed user/computer objects, and set up group-based access control.
- Practicing PowerShell scripting for AD user provisioning and repetitive admin task automation.
- Daily hands-on use of Ubuntu for shell fundamentals, SSH, and package management (apt); exploring CentOS and Kali Linux for OS familiarity.

WORK EXPERIENCE

Sales Trainee — SoftNice India Pvt Ltd (US IT Staffing / Bench Sales) *Jan – May 2022*

- Coordinated with US-based clients on candidate requirements; managed outbound calling and candidate sourcing.
- Maintained CRM/database records and supported end-to-end candidate placement coordination.

LEARNING & SELF-STUDY

Windows Server & Active Directory Lab *(In Progress, 2026)*

- Set up Windows Server 2022 in a virtual lab environment (VMware/VirtualBox) and configured Active Directory Domain Services and Organizational Units.
- Studying core IAM concepts (authentication, authorization, RBAC, access lifecycle) while preparing for the SC-900 certification.
- Building PowerShell scripting skills daily for AD administration tasks.
- Learning ITIL Foundation concepts to strengthen IT service management fundamentals for support/sysadmin roles.

CERTIFICATIONS

Microsoft SC-900: Security, Compliance, and Identity Fundamentals — In Progress

EDUCATION

Bachelor of Technology, Computer Science & Engineering — AKTU — CGPA: 7.1 2025

Diploma, Computer Science & Engineering — UPBTE — 71% 2021

ADDITIONAL INFORMATION

- Open to relocation anywhere in India; actively building technical skills through self-directed labs.
